Manuscript # AMJ-05-XXX "XXXX"

REVIEWER # X

DUE DATE: XXXX, 2005

Instructions: Please rate this manuscript on the following criteria (place X under appropriate category):

CRITERIA	EVALUATION OF CRITERIA				
	Completely inadequate	Weak	Modest	Strong	Very Strong
A. Appropriateness for <i>AMJ</i>					
B. Clarity of exposition					
C. Technical adequacy					
D. Theoretical contribution (i.e., testing, creating, or extending theory)					
E. Empirical contribution					
F. Interestingness, innovativeness & novelty					
G. Potential implications for practice					
H. Potential significance of contribution					
I. Magnitude of contribution relative to length					

Your recommendation:

1. _____ Clear reject
2. _____ Doubtful, needs major revision for me to tell
3. _____ Promising, but needs major revision
4. _____ Accept with minor revision
5. _____ Accept as is

If you recommend revision:

1. Should this manuscript be *reduced* in length? Yes _____ No _____
 If yes, by approximately how many pages? _____ pages
 If yes, what material might be deleted without detriment?

2. Is the title appropriate? Yes ___ No _____
 If no, how might it be improved (e.g., more descriptive, more interesting)?

(Please see next page)

Comments for the Editor

Comments on this page are intended to assist the editor with decision making and/or to raise issues with the editor that you believe may be inappropriate for the authors to see. In the latter case, **please indicate that you do not want the editor to mention your comment in his/her decision letter.**

Comments for the Author(s) should begin on the *page that follows* this one. The purpose of the Author Comments is to provide feedback to the author(s) on the specific issues that formed the basis for your recommendation and to suggest revisions that you think will help strengthen the work. Please make your comments to the author as comprehensive, specific, and constructive as possible.
